Assignment Brief

Networking Design and Administration

Assignment 3: Networking Administration

a (P5, P6, P7)

For any LAN to which you have administrative access:

Write an information sheet aimed at trainee network administrators, which explains the basic purpose of a number of network administration tasks, and demonstrate how to:

1. carry these out using NOS tools
2. set up user accounts with specified permissions
3. set up a network printer and network printer access rights

This assignment provides evidence for unit 24 -- P5, P6, P7

Note: All practical demonstrations must be evidenced by witness statement/observation records, signed and dated by your Assessor
